October 27, 2000

To Whom It May Concern:

Joseph Lennox has served on our teaching staff at the Gifted Child Society since 1996. He is an exemplary teacher giving classes and workshops to our gifted students in space exploration, space flight and astronaut training.

It didn't take long for Mr. Lennox's courses, "A Giant Leap for Mankind" and "Astronaut Training 101," to become staples in our school's curriculum. His expertise and passion for his subject matter are evident in each class that he teaches. He readily shares his memorabilia from actual space flights and students welcome his hands-on and interactive approach to teaching.

Joseph Lennox is able to command the respect and interest of any age group. He is a true gentleman and scholar. It is a privilege to work with him weekly and watch him expand the minds and imaginations of our children.

Yours truly,

Ann Skelley  
Curriculum Coordinator
