Mr. Joseph Lennox
80 Wayne Avenue
River Edge, New Jersey 07661

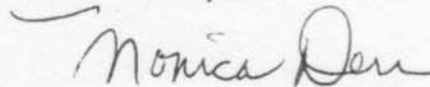

Dear Mr. Lennox:

Thank you so much for the Space Program presentation you gave to our sixth grade classes. Your knowledge of the Space Program is very impressive, and the presentation was most informative. You captured the children's imaginations and evoked many thoughtful questions.

We especially appreciated the models you brought and the demonstrations you performed, which made things more tangible for the children. Your enthusiasm for the Space Program was contagious, and everyone present learned something.

I hope you have an opportunity to give your presentation to other schools. Children really can benefit from it.

Sincerely,

Monica Derr
Past President
